Objectives

OMAP Platform objectives

PROMOTING INVESTMENT OPPORTUNITIES

Promoting investment opportunities in the zones supervised by the Authority

RENEWABLE ENERGY

Supporting OPAZ plans in planning processes for transmitting renewable energy

PROVISION OF SPATIAL INFORMATION

Rapid provision of spatial information to support decision-making processes

URBAN PLANNING

Benefiting from the platform in urban planning and future expansion

OMAP Platform objectives

SUPPORTING THE DIGITAL TRANSFORMATION

Supporting the digital transformation process in the private, free and industrial economic zones sector

SPATIAL DATA AVAILABILITY

Investors and users can access detailed spatial and accurate data through interactive maps

ENHANCING THE TOURISM

Enhancing the tourism aspect by providing tourist attraction sites

SPATIAL DATA SHARING

Involving amateurs and those interested in sharing their sites and activities via the platform

Why OMAP

الهيئة العامة للمناطق الاقتصادية الخاصة والمناطق الحرة
Public Authority for Special Economic Zones and Free Zones
Sultanate of Oman
سلطنة عمان

Why Omap?

OMAP is a unified digital platform that connects all Free Zones with live data, supporting investors throughout their entire investment journey. It serves as a strategic tool for urban planning, attracting high-quality investments, and advancing sustainable digital transformation.

01 **Limited Access to Reliable Data**
Solved through real-time, interactive maps & updated satellite imagery

02 **Fragmented & Non-Transparent Information**
Unified into a single integrated platform for better decision-making

03 **Lack of Analytical & Planning Tools**
Enabled via smart tools (measurement, filtering, KPIs, analysis)

04 **Poor Visibility of Infrastructure**
Enhanced through detailed visualization of utilities & services

05 **Manual & Paper-Based Processes**
Replaced with a fully digital, end-to-end investment journey

OMAP Targeted Audience

Categories benefiting from the platform

Individual investors and companies from inside and outside the Sultanate of Oman

Infrastructure service providers

Consulting offices

Executive and supervisory management and decision makers

Engineers and Planners in the economic zones

Hobbyists, researchers and tourists
