About this property

Comfortable Accommodations: The Hoxton, Lloyd Amsterdam - Eastern Docklands in Amsterdam offers family rooms with private bathrooms, walk-in showers, and modern amenities. Each room includes a tea and coffee maker, refrigerator, and free toiletries.

Dining and Leisure: Guests can enjoy a sun terrace, restaurant, and bar. The restaurant serves brunch, lunch, and dinner with vegetarian and vegan options. The bar offers a relaxed atmosphere for evening drinks.

Convenient Location: Located 11 mi from Schiphol Airport, the hotel is near attractions such as the National Maritime Museum and NEMO Science Museum. An ice-skating rink and boating are available in the surroundings.

Guest Services: The hotel provides private check-in and check-out, a 24-hour front desk, daily housekeeping, and room service. Free WiFi is available throughout the property.

Couples in particular like the location – they rated it **8.3** for a two-person trip.

Geo Entities

300M+

Daily Geo Reqs

Enable **seamless**, **connected**, and **locally relevant** experiences through geo-intelligence that help every traveler discover, book, and enjoy the best locations

From free text search to geo-entity intelligence

PILLAR 1

Capture Intent

“family-friendly villa in Tuscany near the beach, within a 30-minute drive from Florence Airport and close to great local restaurants”

PILLAR 2

Translate to geo context

We turn that free text into trip type, dates, constraints and concrete geo-entities

PILLAR 3

Hyper Personalisation

Use geo features to rank, filter and recommend the right stays, transport and things to do for that specific intent

Geo + LLMs : what we rank, and how we default views by traveller Intent

Trip themes

- **Families:** safe, quieter areas, short access to beach, super markets
- **Couples:** scenic views, intimate neighbourhoods, fine dining and evening walks
- **Nature:** trails, water and viewpoints

Geo signals

to elevate destinations & properties

- Geospatial features, walkability, real travel times
- UGC at scale: millions of verified reviews, photos, Q&As that describe what a place feels like, not just where it is
- Ranking & Relevance

We moved from assuming what travellers wanted to understanding **where**, **when** and **how** they want to travel. Geo and AI is what makes that work at scale.

Thank you!
