access to intelligent space technologies

~~SCARCITY~~ → **SOVEREIGNTY**

*"If you're not at the table,  
you're on the menu."*

STRATEGIC ACCESS · 2025

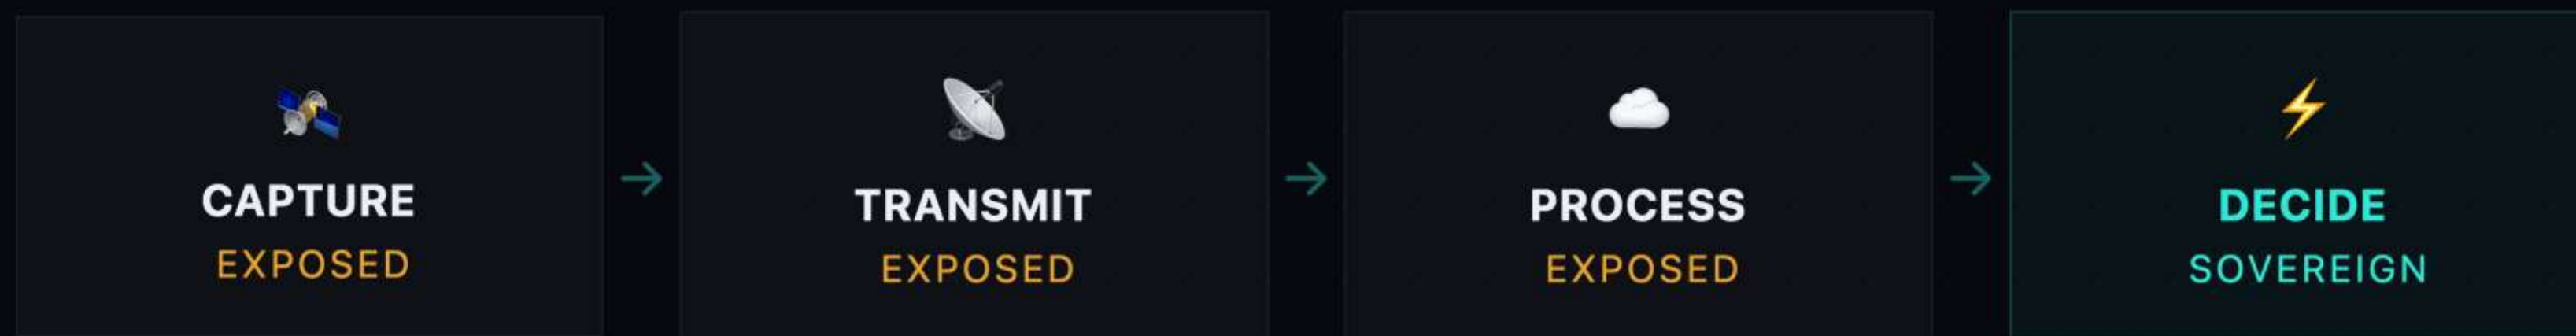

SEEING WITHOUT ASKING

**THE FIRST MOVE  
IS NOT KINETIC.  
IT IS INFORMATIONAL.**

Signals disrupted. Data delayed. Visibility obscured — just long enough to create hesitation.

INFRASTRUCTURE INDEPENDENCE

# Space infrastructure does not end **in orbit.**

If your data leaves your borders to become useful,  
your sovereignty leaves with it.

A QUESTION FOR ALL OF  
US

# How do we responsibly share visibility in a world where everyone can see?

---

The barrier is no longer cost or technology.  
It is conviction — and the courage to act.
